

Does Your Child Never Listen, Or Does He/She Not Process The Information They Hear?

~~~~~  
**Join us for this Education Group sponsored by  
The Learning Disabilities Association of Utah**

**Our presenters for the night will be:**

**Nancy Murray, AUD., CCC, A/SLP**

**Allison Tanner, MS, CCC, SLP**

**A child may have auditory processing disorder (APD). Also known as central auditory processing disorder (CAPD), is a complex problem affecting about 5% of school age children. These kids can't process the information they hear in the same way as others because their ears and brain don't fully coordinate.**

**This evening will be offered at:**

**South Jordan Library  
10673 South Redwood Road  
South Jordan, UT 84095**

**Wednesday, February 22, 2012      7:00 – 8:45 PM**

**The workshop and materials are free. Please  
pre-register by contacting Gaylia at**
